Day 2: In the morning after an early breakfast, we will depart for Bwindi Impenetrable Forest National Park, home to the few remaining mountain gorillas (the drive will take approximately 10 hours). Bird life and primate life in Bwindi is quite superb, and there is an incredible variety of flora. Bwindi is the bird watcher's heaven!! It is the home of 348 species of birds and supports 24 of the 26 Albertine Rift Endemics that are to be found in Uganda, as well as seven Red Data Book species. Once part of the forests of the Virunga Volcanoes, Bwindi is now an ecological island, surrounded by abundant farms, rich from the volcanic soils.

BUHOMA LODGE: Located in the heart of Bwindi Impenetrable Forest National Park, the lodge has 8 comfortable cottages, each with its own private veranda and a beautiful view of the forest. Inside the cottages you find en suite bathrooms.

Day 3: Wake early for a hearty breakfast to give you the energy needed for gorilla trekking. Before 8:00am, report to the ranger station for registration and a talk by one of the rangers. The guides will then take you through the bush, pushing your way trough the undergrowth, to track the gorillas. (Please note this trek can take from 30 minutes to 5-6 hours). A reasonable degree of fitness is required, as well as a sturdy pair of walking shoes. Sit in the forest among the gorillas, listening to them 'talk' to one an other, and marvel at the sheer size of the dominant male, the Silverback. It is an extraordinary feeling sitting in the dense rainforest knowing you are with a few of the last remaining mountain gorillas. It's amazing to think there are only about 650 of these beautiful creatures left.
